We have audited the statement of financial position of **Alyattes Enterprises Inc.** as at December 31, 2000 and 1999 and the statements of net loss and deficit and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Notes to Financial Statements

Note 1 Basis of Accounting

These financial statements have been prepared on the basis of accounting principles applicable to a going concern which assumes that the company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. However, the Company had operating losses of \$6,984 in 2000 and an accumulated deficit of \$159,572. The Company does not have a revenue source that can provide it with a regular source of cash flows and is dependent on financing for future operations.

These financial statements do not give effect to any adjustments to the amount of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 2 Summary of Significant Accounting Policies

Nature of Operations

Alyattes Enterprises Inc. was incorporated July 5, 1996 to engage in the acquisition and exploration of mineral properties. The Company is in the development stage and has yet to generate any revenue from operations. The Company follows accounting policies generally accepted in Canada.

Exploration and Development Costs

Exploration costs incurred prior to the acquisition of an interest in a mining property are expensed as incurred.

Exploration costs incurred subsequent to the acquisition of an interest in a mining property will be deferred until such time as commercial production begins and then amortized against related production revenues. If a property is determined not to contain economically recoverable reserves these costs will be expensed at that time.

Administrative costs are expensed as incurred.
